TO: Board of School Directors
FROM : Joseph Roy, Superintendent
SUBJECT: 2011-2012 Budget Letter of Transmittal
DATE: June 8, 2011

Introduction and Background

The 2011-2012 Bethlehem Area School District (BASD) budget was developed against the backdrop of the worst economic and budget challenges in memory. The anticipated loss of federal stimulus monies coupled with a larger than expected loss in state revenues resulted in a nearly \$7.0 million reduction in revenues when compared to the 2010-2011 budget. This loss of revenue placed tremendous pressure on the district to identify significant expenditure reductions in order to produce a budget that both respects the current economic environment for local taxpayers and maintains the district's ability to provide a quality education for students.

This proposed final budget represents an overall reduction from \$207.2 million in 2010-2011 to \$203.8 million in 2011-2012. In prior years, the Athletic Fund was not incorporated into the General Operating Budget (GOB). New accounting rules now require the inclusion of the Athletic Fund in the GOB. Even with the addition of the Athletic Fund, there is a decrease from the prior year. This overall reduction in the District's budget from one year to the next is unprecedented in recent history. When compared with the preliminary budget approved in February 2011, this proposed final budget contains roughly \$10 million in expenditure reductions.

This proposed final budget includes a proposed 0.7508 increase in mills, which represents a 1.7% increase.

To guide us through this challenging budget development period, we established several budget goals:

- Sustainable budgeting – aligning on-going programs to reliable revenue sources
- Assure adequate financial resources
- Sustain mandated programs
- Pursue the multi-year financial goal of growing the fund balance
- Target a budget not to exceed the Act 1 Index of 1.7%

Additionally, the district's *Roadmap to Educational Excellence* identifies four components necessary for school improvement planning: core academic learning; stretch learning; student engagement; and personal skill development. This "comprehensive" school experience is critical to our mission as a public school and guided our efforts throughout the budget process.

Revenue

Loss of revenue, as mentioned above, was the driving challenge in developing this budget. Specifically, the reduction in revenue is due to the loss of the American Recovery and Reinvestment

Act (ARRA) funds coupled with the elimination or reduction of programs in the proposed state budget including the Accountability Block Grants, the Educational Assistance Program, Charter School Reimbursement, and Social Security reimbursement. The recently passed PA House of Representatives budget bill restored \$665,439 in Accountability Block Grant funds for our district.

The ultimate impact of this overall reduction in revenue was to further shift the burden of financing our public schools to the local taxpayer. Specifically, the local share of the BASD revenue increases in this budget from 67.8% in 2010-2011 to 71.3% in 2011-2012. At the same time the state share of BASD revenue decreases from 27.6% to 25.9%.

This proposed final budget does not make use of Act 1 exceptions. However, the District did apply for exceptions to hedge against potential additional loss of revenue. The District was approved by the PA Department of Education for four exceptions: School Construction: Debt; Special Education; Retirement Contributions; and School Improvement Plan for a total of \$2.8 million in exceptions. With these exceptions, the maximum allowable tax increase is 4.02%. Again, this proposed budget does not use the approved exceptions.

Expenditures

As mentioned above, this proposed final budget represents approximately \$10 million in expenditure reductions when compared to the approved preliminary budget. This budget reflects program changes and reductions in support operations across all areas and departments. With the exception of \$645,541 budgeted to purchase Stop/Loss insurance to protect the District against catastrophic medical claims and \$385,000 to properly budget for maintenance repairs (primarily sinkhole, electrical and HVAC repairs), this budget contains no new expenditures. The budget contains the proposed removal of two high school athletic director positions from the collective bargaining unit and the creation of one administrative athletic director position for a net savings of \$75,000. Based on anticipated Accountability Block Grant funding of \$665,439 this final proposed budget contains recommendations to restore previously proposed reductions in all day kindergarten, school resource officers and technology purchases to support literacy interventions.

This proposed final budget contains expenditure reductions in three major expenditure functions that comprise the budget: Instruction (-2.12%); Support Services (-1.89%); and Non-Instructional Programs (-2.84%).

Expenditure reductions (as detailed in subsequent pages), include a nearly 8% reduction in overall personnel in the district. These reductions must be viewed in the context of previous reductions BASD has made in recent years. In April, the district approved and submitted to the Department of Education for review a number of educational program changes including:

- Modification of the Pre-K program
- Institution of Uniform Half-Day Kindergarten
- Reduction in a Number of Elementary Classes
- Middle Level Program Reorganization
- Institution of a 20-student Minimum Enrollment for High School Electives
- Elimination of the Teacher-Coaching Program

These program changes contribute to the overall personnel reductions mentioned above.

Conclusion

The 2011-2012 budget balances educational needs with financial/economic realities. Most importantly, this budget contains difficult decisions to reduce the scope of district operations and to create an organizational size that provides a more sustainable foundation on which to build future budgets.

Transportation		
March 24 Wkshp	Reduce new bus purchases	\$ 400,000.00
March 24 Wkshp	Reduce an Asst. Supervisor of Transportation position	\$ 75,000.00
March 24 Wkshp	Eliminate Summerbridge transportation for summer	\$ 10,000.00
March 24 Wkshp	Eliminate SPARK transportation	\$ 80,000.00
March 24 Wkshp	Eliminate/Reduce summer bus washers	\$ 9,635.00
April 7 Wkshp	Reduce MS/HS after school runs to 2 days/wk	\$ 27,000.00
Other Adjustments		
March 24 Wkshp	REMS	\$ 103,808.80
April 7 Wkshp	Pay Freeze for Superintendent, Asst. Supt. for Education & Asst. to Supt. Finance & Admin	\$ 8,700.00
Recommended Restoration of Cuts Based on ABG Grant		
June 8 Workshop	High School School Resource Officers	\$ 180,000.00
June 8 Workshop	Full-Day Kindergarten	\$ 311,000.00
June 8 Workshop	Support Literacy Interventions - Read 180 Computers	\$ 174,000.00

2011-12 GENERAL FUND BUDGET

Expenditure Summary by Functional Area

07-Jun-11

The Function describes the activities for which a service or material is acquired. The functions of an LEA are classified into five broad areas: 1) Instruction, 2) Support Services, 3) Operation of Non-instructional Services, 4) Facilities Acquisition, Construction and Improvement Services, and 5) Other Financing Uses. Functions consist of activities, which have somewhat the same general operational objectives. For example, the subfunctions (the first major subdivision of a function), of the function Support Services consist of such areas as transportation, pupil personnel services, administration, etc. The function for Instruction is broken down by program (e.g., regular, special, vocational, etc.). Construction of the functional coding structure beyond the subfunction classification is based on the principle that the classification of activities should be combinable, comparable, relatable and mutually exclusive.

DESCRIPTION	09-10 ACTUAL	10-11 BUDGET	11-12 BUDGET	VARIANCE	% CHANGE	% of BUDGET
1100 Regular Instruction	\$80,593,946.19	\$88,526,789.00	\$87,819,672.00	(\$707,117.00)	-0.80%	43.09%

2011-12 GENERAL FUND BUDGET

Expenditures by Functional Area - Expanded View

07-Jun-11

This summarizes the activities for detail area where services are delivered. Functions consist of activities, which have somewhat the same general operational objectives. For example, the subfunctions (the first major subdivision of a function), of the function Support Services consist of such areas as transportation, pupil personnel services, administration, etc. The function for Instruction is broken down by program (e.g., regular, special, vocational, etc.). Construction of the functional coding structure beyond the subfunction classification is based on the principle that the classification of activities should be combinable, comparable, relatable and mutually exclusive. The expenditure and expense accounting system has been so structured that all the costs within the particular subdivisions of that function can be combined to form a summary total of related costs. Costs are recorded only once so that they are mutually exclusive.

1000 *Instruction: Instruction includes all those activities dealing directly with the interaction between teachers and students and related costs, which can be directly attributed to a program of instruction. Included here are the activities of aides or classroom assistance of any type (clerks, graders, teaching machines, etc.) that assist in the instructional process.*
