May 9, 2016

Bethlehem Area School District
2016-2017 Budget

Executive Summary
May 9, 2016

Introduction and Background

The 2016-2017 Bethlehem Area School District (BASD) budget was developed in the context of the on-going challenges related to structural deficits and state policies that damage local school funding processes. The proposed final budget of \$261.6 million represents a 6.84% overall increase from the 2015-2016 budget of \$244.8 million. The increase in the 2016-2017 budget is attributed to several key cost drivers: salaries (+\$3 million), PSERS (+\$4.8 million) and charter school tuition (+\$5.1 million).

The net increase in operating cost for the 2016-2017 year without the impact of the mandated pension and charter school tuition expenditure increases is only 3.41% above the operating costs for the current year. This follows an increase of only 1.6% in 2015-2016 and 0.25% in 2014-2015, reflecting very conservative spending on internal discretionary costs.

This proposed final budget includes a proposed increase of 1.9 mills in Northampton County and 0.92 mills in Lehigh County, which represents an average tax increase of 3.9% district wide. It is important to note that without the \$26 million in charter school tuition expenses and \$29.9 million in PSERS costs, the BASD budget for 2016-2017 would require no tax increase.

To guide us through this challenging budget development period, we established several budget goals:

- Sustainable budgeting – aligning on-going programs to reliable revenue sources
- Maintain mandated programs, existing contracts and agreements
- Address the structural deficit of long term costs outpacing long term revenue growth
- Preservation – focus on stabilizing and preserving educational programs.
- Address multi-year, cyclical needs – specifically purchase/lease cycle for new buses, facilities maintenance and technology

Additionally the district's *Roadmap to Educational Excellence 3.0* identifies four components necessary for school improvement: core academic learning; stretch learning; student engagement; and personal skill development. This "comprehensive" school experience is critical to our mission as a public school and guided our efforts throughout the budget process.

Revenue and Expenditure Highlights

While state revenue is projected to increase by approximately \$2.2 million in anticipation of a \$1.5 million increase in Basic Education funding and \$769,165 in Special Education funding, this proposed final budget again anticipates flat federal funding. The overall trend of shifting the burden of financing our public schools to the local taxpayer continues.

This proposed final budget used 64% of the available Act 1 exceptions approved for the district. The District was approved by the PA Department of Education for two exceptions: Special Education; and Retirement Contributions for a total of \$2.7 million in exceptions.

This proposed final budget represents a 3.4% overall increase in expenditures excluding PSERS and charter school tuition costs.

Within this conservative budget plan, we are able to continue to offer Full Day Kindergarten, the single most impactful educational initiative our district has undertaken in years. Additionally, this budget supports the continued development of key educational initiatives including Project Lead the Way, Reading by grade 3, middle school math and science, online hybrid learning, professional development, Equity in Education, College and Career Pathways, Community Schools, Leader in Me, and AP course offerings.

Conclusion

The 2016-2017 BASD budget balances educational needs with financial/economic realities. This proposed final budget is designed, under challenging financial circumstances, to protect core educational programs following the major reductions of the 2011-2012 budget. We continue to strive to educate the whole child through student engagement, personal skill development and stretch learning that prepares our students to be productive graduates in whatever career or educational path they chose. The bottom line is that pension and charter school tuition costs are now the greatest threat to the financial stability of the district. Ultimately, policy level issues such as the charter school funding formula and pension cost increases must be solved at the state level. In the meantime, local school districts are forced to cut programs and raise taxes to maintain responsible educational programs.

DOLLAR DOLLAR DOLLAR

However, BASD cannot raise tax millage above the Act 1 Index plus approved exceptions.

DOLLAR DOLLAR DOLLAR

The primary cost drivers impacting the deficit above include several high dollar mandated costs or programs that often overshadow our success and the outstanding commitment of the entire BASD community including the board, administration, staff, parents and students in the achievements of our school district. The impact of these few areas presents a very difficult challenge in maintaining a fiscally conservative operational approach while still providing exciting, creative and inspiring educational opportunities for our students.

2016-17 Budget Cost Drivers

Charter Schools	\$5,134,050	83.96%
PSERS	\$4,827,203	78.95%

Net Deficit Remaining	\$6,114,631	

Revised 5/5/16

2016-17 PROPOSED GENERAL FUND BUDGET

Expenditure Summary by Functional Area

May 9, 2016

The Function describes the activities for which a service or material is acquired. The functions of an LEA are classified into five broad areas: 1) Instruction, 2) Support Services, 3) Operation of Non-instructional Services, 4) Facilities Acquisition, Construction and Improvement Services, and 5) Other Financing Uses. Functions consist of activities, which have somewhat the same general operational objectives. For example, the subfunctions (the first major subdivision of a function), of the function Support Services consist of such areas as transportation, pupil personnel services, administration, etc. The function for Instruction is broken down by program (e.g., regular, special, vocational, etc.). Construction of the functional coding structure beyond the subfunction classification is based on the principle that the classification of activities should be combinable, comparable, relatable and mutually exclusive.

2016-17 PROPOSED GENERAL FUND BUDGET

Expenditures by Functional Area - Expanded View

May 9, 2016

This summarizes the activities for detail area where services are delivered. Functions consist of activities, which have somewhat the same general operational objectives. For example, the subfunctions (the first major subdivision of a function), of the function Support Services consist of such areas as transportation, pupil personnel services, administration, etc. The function for Instruction is broken down by program (e.g., regular, special, vocational, etc.). Construction of the functional coding structure beyond the subfunction classification is based on the principle that the classification of activities should be combinable, comparable, relatable and mutually exclusive. The expenditure and expense accounting system has been so structured that all the costs within the particular subdivisions of that function can be combined to form a summary total of related costs. Costs are recorded only once so that they are mutually exclusive.

5000 <i>Debt & Transfers: This category includes current debt service expenditures and other expenses (expenditures and other financing uses). Other financing uses represent the disbursement of governmental funds not classified in other functional areas that require budgetary and accounting control. These include the refunding of debt and transfers of monies from one fund to another and to component units. Other expenditures recorded to this account series include refunds of prior period receipts and revenues, and current debt service expenditures.</i>
