### Meal Charge Repayment Plan

---

Parents and/or Guardians who receive a negative account balance letter for their child's meal account can ask to set up a repayment plan thru the Dining Services Office as follows. Below outlines the minimum repayment schedule that can be offered. Accelerated payment plans, or paying more than the minimum amount required is strongly encouraged.

1. Fifteen (15) percent of the current negative account balance is due immediately upon confirmation of request for a repayment plan.
2. Ten (10) percent of the current negative account balance will be required monthly.
3. Child must have cash funds to purchase additional meals daily. No additional charges will be allowed.
4. Negative account balances will be forwarded to a collection agency in accordance to board policy if parent and/or guardian fail to adhere to the repayment plan. The parent/guardian will be responsible for all costs associated with the collection activity.
